

## Essential Tools for CNS Business Development

### NeuroPerspective (formerly NeuroInvestment)

The original and still unmatched monthly review of the neurotherapeutics area. Since 1995, NeuroPerspective has provided accurate, independent, and provocative coverage of the science, the programs, the disorders, and the companies working to put them all together.

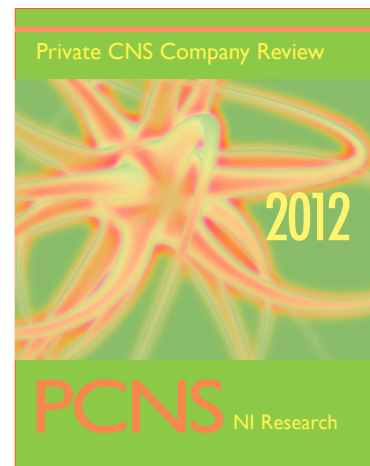

Eleven issues per year: Nine feature full disorder reviews; two review the sector on a company-by-company basis. Monthly reviews of CNS oriented companies or Big Pharma partners provide concise assessments available nowhere else.

### Private CNS Company Review 2012

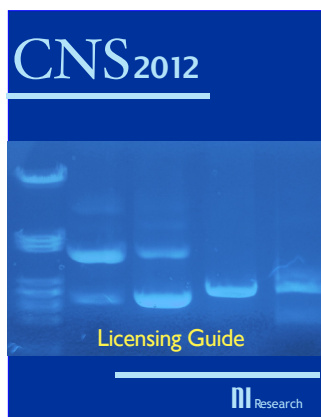

The completely revised and updated 2011 edition provides a unique database of information about the private companies specializing in the development of novel therapeutics for neurological/psychiatric disorders.

PCNS describes and appraises scientific platforms; clinical/preclinical activity; contact information; alliances; financing; prospects, and licensing opportunities.

Produced in pdf form for easy searchability.  
140+ companies, 185+pages. Release date 2/25/12

### CNS 2012: Licensing Guide

**CNS 2012: Licensing Guide:** This evaluation reviews the neurotherapeutics licensing agendas for all major and midsize companies in the CNS area. Opportunities for licensing and M&A are appraised. This provides a vital targeting resource for licensing efforts on both sides of the transaction, potential licensors and licensees.

*Release scheduled for 4/15/12*
